

- 
- What intakes are currently available?

There are many different intakes on the market for the beta engine. They are 2 main types. Cold Air intakes and Short Ram Intakes. Cold air intakes suck in air from outside of the engine compartment. Short Ram intakes take air from inside the engine compartment.

[AEM](#) Cold Air Intake

[Injen](#) Short Ram

[AOS](#) Short Ram

[KSpec](#) short Ram

[Weapon-R](#) Short Ram

[HVE](#) (modified stock airbox design)

[HDK Autosports](#) (metal air box)
